# INSTALLATION OF THERMO TRACK PC

Important notice before you start:

1) If you have a USB adapter do NOT plug it now. Wait until the program tells you to plug it.
2) If you are using Windows NT, 2000 or XP, <u>check that you are administrator of the computer</u>. If you are not administrator, the program will not install properly
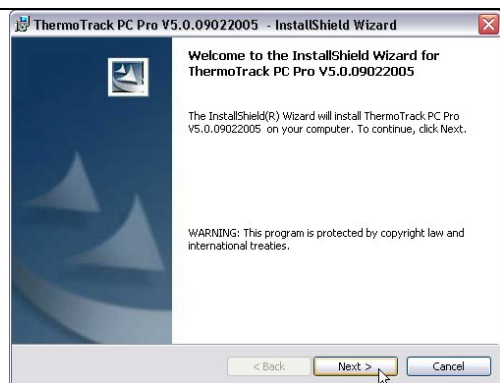

Start first by choosing the program that you have bought	
The following window will appear	
Press « Next »	
Read the license agreement and choose « I accept … » then « Next ». If you don't accept, you can't install	

Enter your name and the one of your organization, then press « Next »

Select « Complete » and press « Next »

Now click on « Install »

You PC might need to install an additional Microsoft program called JVM. In that case, you get this message. Click OK. You will need to re start your computer after the installation.

If your JVM is up to date, you get this message.
Click « OK »

Very important:

If you have plugged your USB adapter, unplug it now.

> **Installation de Thermotrack PC V5**
> ATTENTION : Si vous avez un adaptateur USB de connecter à votre poste, Merci de bien vouloir le déconnecter.
> OK

Now you can plug your USB adapter. If you have a serial or parallel adapter, you can also plug it now.

> **Installation de Thermotrack PC V5**
> Note :
> 1) Si vous avez un adaptateur USB, branchez le maintenant.
> 2) Si l'auto-detect n'arrive pas à localiser le fichier DS2490.sys, allez le chercher dans le répertoire <windows>\system32\drivers.
> OK

If you are using a Palm PDA, you need to close Palm Desktop and the Hot Synch manager now. On done, click on « OK »

> **Installation de Thermotrack PC V5**
> Si vous utilisez un Thermotrack Mobile Edition.
> Merci de fermer la synchronisation et Palm Desktop durant l'installation!
> OK

Now click on « OK »

> **HTML Help 1.32 Update**
> This computer already has a newer version of HTML Help.
> OK

Important:
Press now the « Auto Detect » button on the left.

> **1-Wire Net Port Selection**
> iButton
> Select the adapter type tab to the right and then select the appropriate port number. When finished click 'OK'. Or Select Auto-Detect below.
> Port Selection

> Adapter Required: DS9490
> Port Number: 1
> Driver Info
> Version: V3.21
> Release Date: 03/15/04
> Misc: (IB90USB.DLL) (C00.5·
> DS9097E DS1410E DS9097U DS9490
> Auto-Detect   OK   Cancel

Click on « OK »

> **1-Wire Net Port Selection**
> WARNING, Auto-Detect communicates with all available ports and may disturb peripheral devices.
> If an error occurs, re-run 'Default 1-Wire Net' and select port manually.
> OK   Annuler
Wait while « Auto Detect » progress
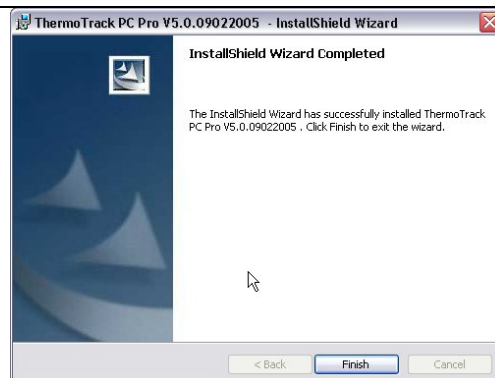

> **1-Wire Net Auto-Detect**
> Auto-Detect in Progress
> Cancel

Once « Auto Detect » has found the adapter and its port, this window appears. Click on « Yes »
The installation is now complete. Click on « Finish »

Choose your language

If you are using Thermo Track for the first time, press « no ».
If you have used version 4 and wish to import data, press « yes »

Enter your access code. It has been sent with your adapter. Then press « OK»

The full version is now activated

You can now change the place where you want to save your data

Thermotrack PC V5
